

*Your 12 Family House is **EXPANDABLE** to a 24 Family House!
It's Easy...*

Simply buy a second 12 Family House. Then use the "cut and drill" template on the other side of this paper.

1. Cut the template in half, one for each side panel.
2. Line up the "C" Holes labeled on each side panel.
3. Tape each template to each side panel.
4. Cut along the dotted line **VERY CAREFULLY**.
5. Drill 3 additional holes as marked on the template.
6. Cut triangular hole for pole.
7. Secure extra floors with a self-tapering screw to pole.

All S&K Martin Houses Are Expandable!

NOTE: All sides have the template in plastic for your convenience.

**BE CAREFUL
WHEN CUTTING!!!
A SHARP KNIFE CAN
CAUSE BODILY HARM!**

S&K Manufacturing, Inc.

First! Use a sharp knife to cut the flange off at the bottom of the top house.

*When S&K Says Their
Houses Are
EXPANDABLE!
They Mean it!*

**Your 12 Family House is
expandable to a
24 Family House!
(or MORE!)
It's Easy...**

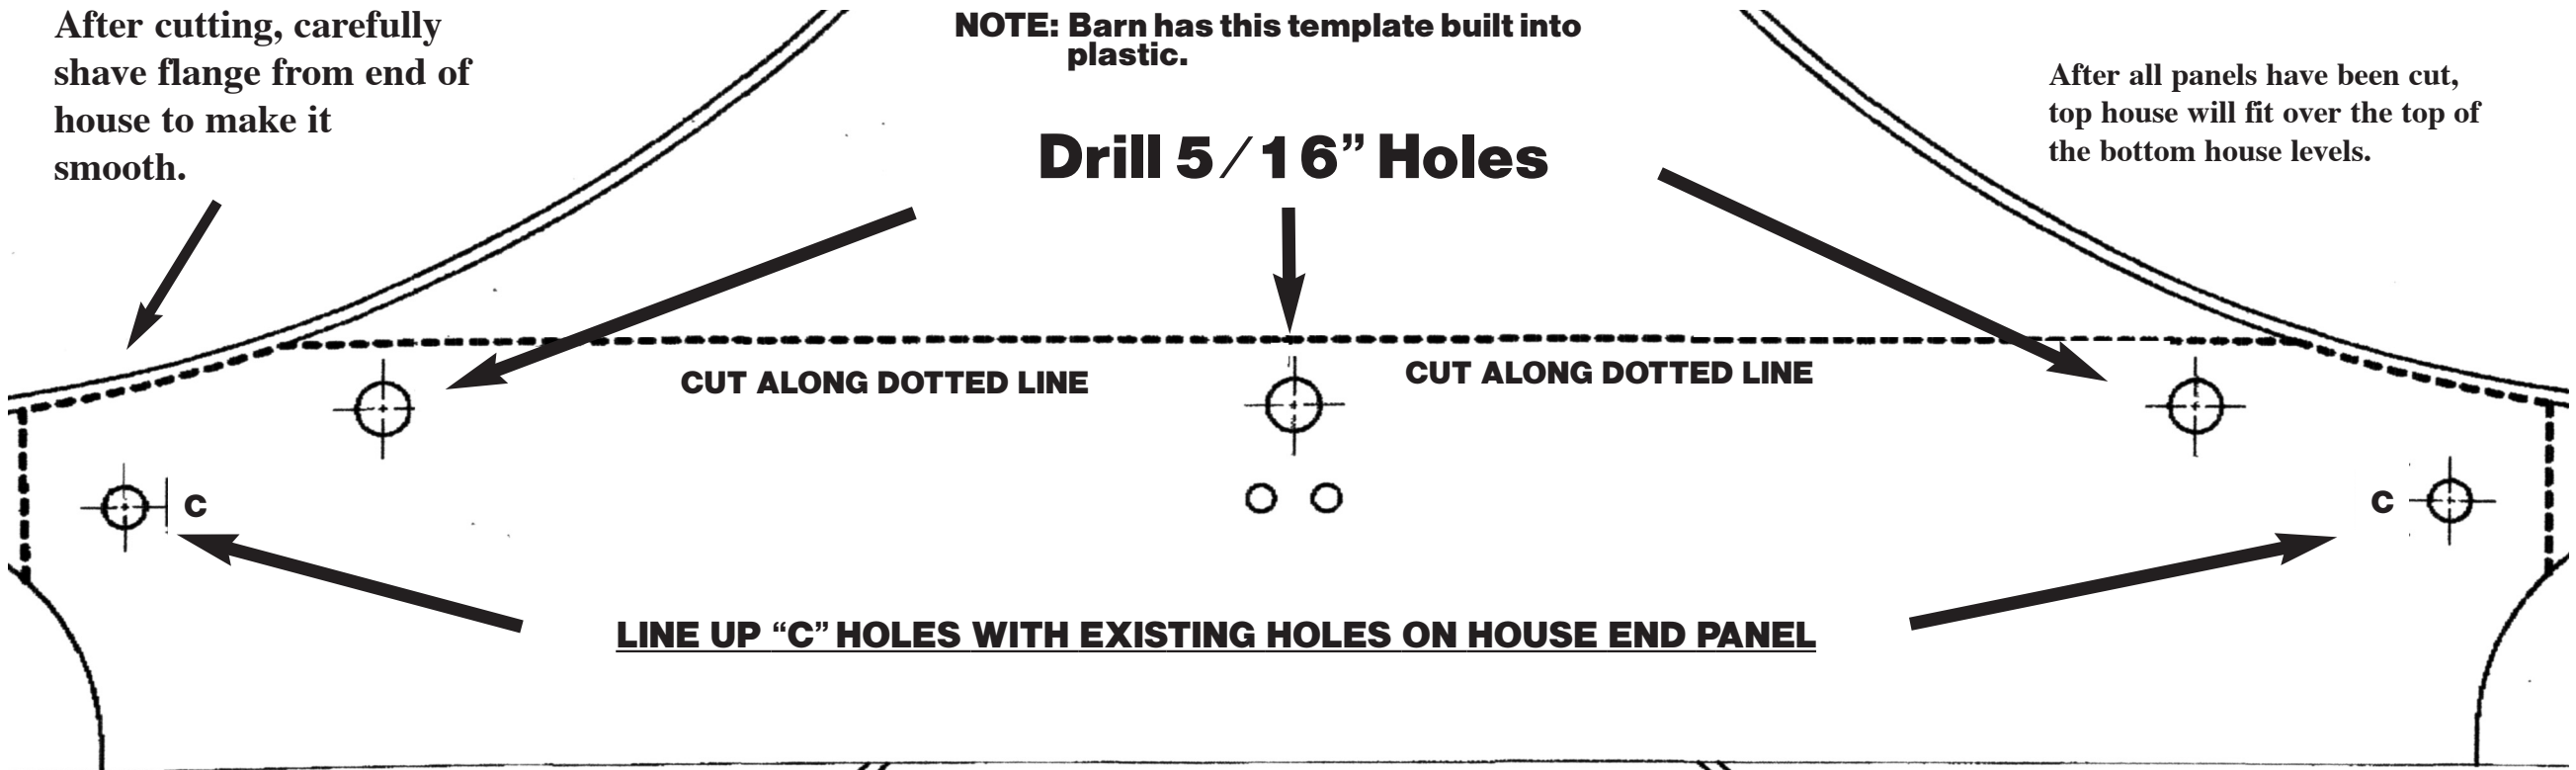

**S&K Manufacturing will cut the end panels for you and send them direct from the factory.
Call 1-800-764-8688! There is a \$20 fee for this service.**

After cutting, carefully shave flange from end of house to make it smooth.

NOTE: Barn has this template built into plastic.

Drill 5/16" Holes

After all panels have been cut, top house will fit over the top of the bottom house levels.

After cutting, carefully shave flange from end of house to make it smooth.

NOTE: Barn has this template built into plastic.

Drill 5/16" Holes

Tape Template in place.
BE SURE IT IS POSITIONED ACCURATELY!
